

Ski Notes

Wasi Cross Country Ski Club

by

Bryan Boothe

Our ski season is well under way with the early snow allowing us to have the trails up and running weeks before Christmas. We've had excellent skiing conditions for much of the season, although the mild temperatures created challenges for our groomers. Our trail crew, headed up by Mogens Christensen, has once again performed their magic.

This season we're celebrating over 20 years in operation. We originally began back in the late 80's under the name East Ferris Cross Country Ski Club.

If you haven't visited us recently, plan on giving one or more of our 6 uncluttered trails a try. Our club caters to the recreational skier and our trails are track set to allow for classic skiing only. The single track meanders throughout the property allowing skiers the chance to get up close to nature and wildlife. It's not uncommon to see deer as you traverse the grounds. After skiing, warm-up by the stove in the chalet and enjoy a free hot chocolate.

We're conveniently located on Lake Nosbonsing Road just before you get to Astorville. The map is on our website at <http://www.wasiski.com>.

See you on the trails.
